EXPERIENCE

Flywheel Digital, Baltimore, MD — *Full Stack Developer*

FEB 2021 - PRESENT (remote)

- Led cross functional team of 6 developers to build visualization dashboard of eCommerce performance metrics for fortune 100 executives using **NextJS**, **React**, **Redux**, and **MaterialUI**.
- Created and maintained RESTful web services using **Java**, **Spring Boot**, **Docker**, **Kubernetes**, **MySQL**, and **Redshift**.
- Maintained and enhanced API propagation service managing over 1M+ daily operations such as automated bid adjustments on Amazon, Walmart, and Instacart using **.NET Core**, **MySQL**, and **AWS Lambda**.

Carbon Creek, State College, PA — *Co-Founder*

MAY 2018 - PRESENT (remote)

- Build and host websites for small to medium-sized businesses using **Gatsby**, **TailwindCSS**, **Netlify**, **Google Analytics**, and other JAMStack technology.
- Provide consulting, design, development, and digital marketing services to startup ventures and service-based businesses.
- Manage marketing and branding for Carbon Creek.

Avail Technologies, State College, PA — *Software Engineer*

JUL 2018 - FEB 2021 (remote)

- Led refactor effort of **.NET Core** API to the "Clean" or "Onion" Architecture to invert dependencies and promote easier unit testing.
- Published 14 wiki guides to team engineering docs (top publisher).
- Developed Transit Planning and Incident Management modules using **Angular**, **RxJS**, **.NET Core**, and **Microsoft SQL Server**.
- Optimized geospatial route buffering algorithm for Title VI reporting, improving accuracy and performance by 400%+.

Dataforma, York, PA — *Team Lead / Software Engineer*

MAY 2015 - JUL 2019

- Led team initiative to reduce bug backlog from 212 to 70 in 3 weeks.
- Wrote and implemented issue triage process for handling customer support requests using **YouTrack**.
- Led integration of **Vue.js** and **Webpack** into the client-side stack.
- Supported launch of stand-alone Supplier Portal application using **Spring Boot**, **Angular**, and **Bootstrap**.
- Implemented scheduled notifications using **Quartz**, **AWS SES**, **AWS SNS**, and **AWS Lambda**.
